

Global Spare Parts Network  
World Wide Delivery

## All marine applications:

**Spare parts**

**Consulting**

**Surveys**

**Services**

**Safety**

**Port equipment**

We have ISO 9001:2008 quality standard certificate  
and we provide services at the highest level

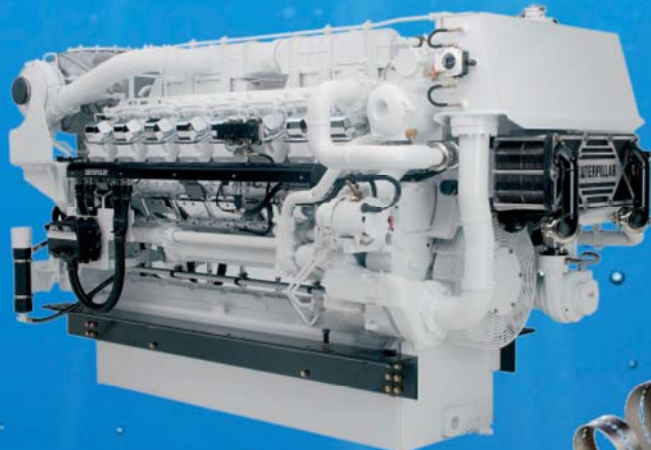

GLINAR Global Spare Parts Network provides technical supply of marine transport with spare parts and other first-grade services since 2006.

We offer wide range of marine diesel engines and spare parts of different origin. We supply all kinds of fuel-oil purifiers, lubricating oil filters, air filters, assembly and component parts for pumps, air compressors, separators, turbochargers and gasket sheets from our Europe and South Korea warehouses. We also supply new and reconditioned spare parts.

We offer world-wide business organization and consulting services, engineering development and thickness measurements, full condition independent survey according to IACS rules and international standards before sale or repair.

#### Main and auxiliary engines:

- Wartsila (incl. Deutz, Stork, Sulzer etc.)
- MAN B&W
- MaK
- Caterpillar
- Daihatsu
- Yanmar
- Scania
- Volvo Penta
- GM Detroit Diesel
- GE
- Habarovec

and other brands

# Safety

## Inspection of:

- Hydrostatic release units
- Inflatable rescue boats
- Fire extinguishers (Foam, Powder, Carbon dioxide)
- Breathing apparatuses and EEBDs (DRAGER; SABRE; ASV-2; MSA AUER; INTERSPIRO)
- Life jackets
- Life buoys
- Immersion suits
- Thermal protective aids
- Storm ladders
- Embarkation ropes with musings
- Safety belts, ropes and carabines
- Fire man suits
- Fire hoses
- Navigation equipment
- Manometers
- Analyses of fire extinguishing liquids
- Inspection of fixed fire extinguishing systems (Level checking, hydraulic tests of cylinders)

## SOLAS Life rafts:

- RFD
- DSB
- EUROVINIL
- UZEMIC (Russia)
- FUJIKURA
- CSM STAR RUBBER
- STOMIL

On stock we always have necessary life saving equipment (Life rafts, life jackets, life buoys), fire fighting equipment (Fire extinguishers, fire hoses, fire man suits), and all other products, which are related to lifesaving and fire fighting equipment.

# Oil supply

In the port of Riga, Tallinn, Klaipeda, Liepaja, Ventspils, we work with our partners as an official dealer, offer products from the Italian group ENI SpA, 40 years of producing offshore oil under the brand name  Agip  Chevron . It is useful to note that all marine oils  Agip  Chevron for diesel engines running on gas oil, and  Agip  Chevron oil for engines operating on fuel oil, have been approved by manufacturers of engines SKL, WARTSILA, B & W, MTU, DEUTZ, you can see in the descriptions of these products are applied to this letter. If necessary, these tolerances can be provided to you.

We also offer oil and lubricants at competitive prices from manufacturers such as

## Fenders

Pneumatic fenders is a leading anti-collision device for marine application in the world today. This fender is made of synthetic-cord-reinforced rubber sheets with compressed air inside to enable it to float on the water and work as a protective medium. Therefore, pneumatic rubber fenders serves as a critical protective medium against collision when ship-to-ship (STS) transfer operations and ship-to-dock (STD) berthing and mooring operations.

Pneumatic fenders has the advantages of massive energy absorption with low unit surface pressure acted upon the ship. So Pneumatic fenders has become an ideal ship protection medium used extensively by large tankers, LPG vessels, ocean platforms, bulk carriers and floating structures, large docks, harbor and wharfs. Note: Pneumatic fenders sometimes also called "Yokohama (Type) Fenders".

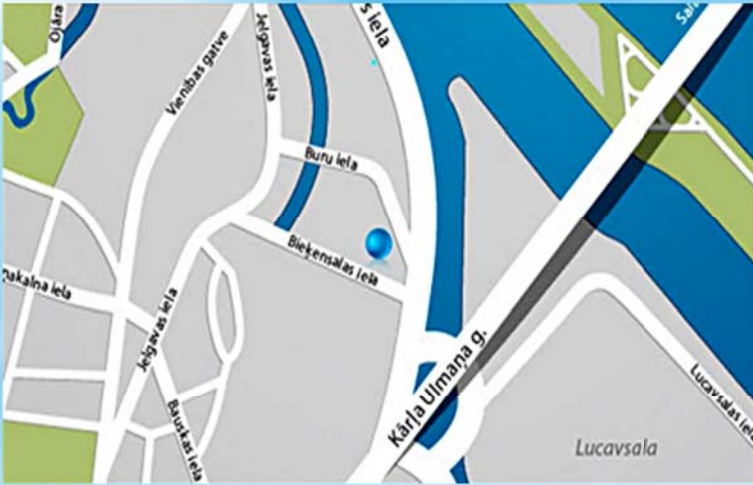

# Mooring Bollards

Any type of mooring bollards:

We can make Mooring Bollards of materials necessary and according to the sizes provided by the customer.
